### SKILLS

- PHP
- ReactJS
- HTML
- CSS
- MySQL
- AWS

## PROFILE

I am a proficient software developer with a wealth of experience spanning over 10 years in the IT industry. Throughout my career, I've been involved in creating software by utilizing my expertise in backend service and API development, primarily using technologies such as Laravel and Node.js. Additionally, I've honed my skills in frontend development by using frameworks like React.

## EDUCATION

Ho Chi Minh City University of Science

2008 - 2012

Bachelor of Applied Science (BASC) in Computer Science

## WORK EXPERIENCE

### Icon Technic

Senior Software Engineer

APRIL 2023 - NOW

- Back-End Development: Developing server-side logic using PHP, defining and maintaining the central database, and ensuring high performance and responsiveness to requests from the front-end.
- Creating RESTful APIs: Designing and implementing services that can integrate with other components of the application, such as providing data to the front-end, from the back-end.
- Front-End Development: Creating user interface components using React.js, ensuring that these components, along with the application's overall front-end, are robust and easy to maintain.
- Ensuring Code Quality: Reviewing the submitted code for clarity, efficiency, and structure.

### Bittus

- Backend: Laravel
- Frontend: Next.js
- Database: PostgreSQL
- Role: Full stack Developer
- Other: Laravel Forge, Microsoft Azure
- Link: <https://bittus.edu.vn/>

The platform offers a wide range of courses, learning materials, tests, and educational resources, making it possible for students to access knowledge flexibly and conveniently from any location with an Internet connection.
